Navigation Elements

Narrator: Selecting the Resources button launches a page in a new window that contains references, documents, and job aids. The Resources can be accessed at any time throughout the course.

Narrator: When the Glossary button is selected, it launches a page in a new window listing the terms and acronyms used throughout the course. The glossary can be accessed at any time throughout the course.

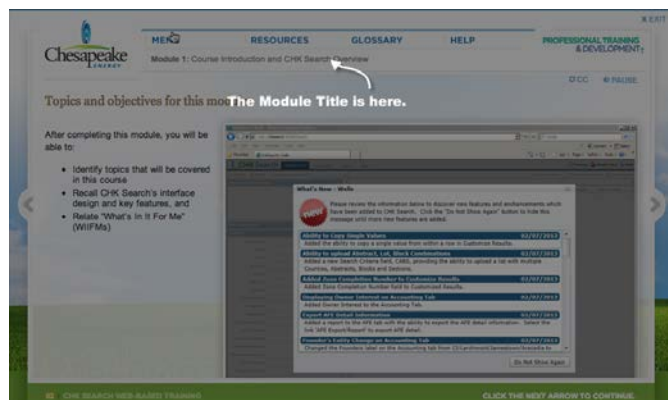

Narrator: When the Help button is selected, it displays a page in a new window with a list of help options including frequently asked questions (FAQs) and Chesapeake Help Desk information (e.g. phone and email). This help button can be accessed at all times throughout the course.

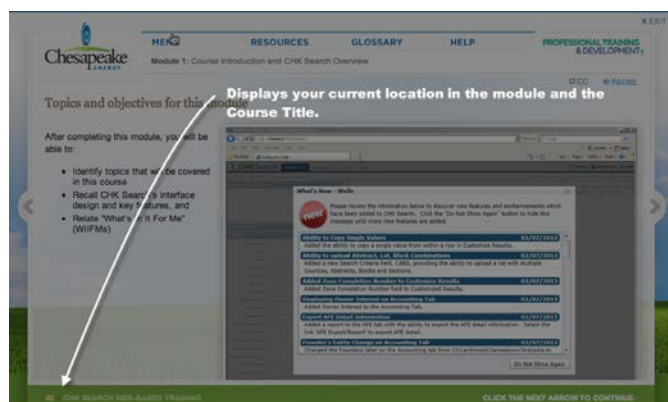

Narrator: At the top right corner, you'll find the Exit button. Selecting the Exit button closes the module and tracks your location in the course, so at a later time you may continue where you left off. If you click this button, you will be prompted to verify that you really do want to quit. If you exit the course in any other way, such as closing the window, your progress will NOT be saved! Because your progress is saved upon exit, it is recommended that you exit the course by clicking the Exit button.
